

BATES® HTR-1

A Thin, Firm Release Coating

A thin, firm release coating intended for a wide range of applications, including high temperature. BATES HTR-1 is a water-based coating used to protect equipment from unwanted build-up of high performance adhesives.

THE BENEFITS OF BATES HTR-1

- Provides durable protection in production and finishing areas where stubborn build-up occurs
- Reduces clean-up time
- Regular application prevents harsh, difficult cleaning that abuses and deteriorates equipment

APPLICATION, COVERAGE & USE

- For any temperature application - Up to 300°F/150°C
- Easily brushed, wiped or sprayed on.

PROPERTIES & STORAGE

- BATES HTR-1 should be stored in ambient temperatures. Avoid high heat, open flames, direct sunlight and freezing temperatures.

DIRECTIONS FOR USE

Apply BATES HTR-1 to any non-porous surface that collects overspray, dripping, or other accumulation of unwanted compounds. Apply below 200°F/95°C for best film formation. Use on press platens, heated plates, membrane/vacuum press trays and grids.

PURCHASE OPTIONS

- Available Quantities:
 - 55-gallon drum
 - 5-gallon pail
- **Pricing information:** Please refer to the **U-C Coatings Product Price List (US & Canada)**
