

# THE B.O.S.S.

## Bright Orange Sample Sealer Is Here!

### Dry Kiln Sample Board Sealer that:

- *seals completely* · *is easily painted on* · *cleans up easily*
- **dries hard** · **no messy handling** · **water based** · **no smelly solvents**

B.O.S.S. sealer is formulated to be a safe, non-messy sample board sealer.

1. It is easily painted on to the ends of sample boards.
2. It dries to a hard finish so there is no mess from repeated handling after it has dried.
3. Water-based, there are no smelly solvents or fire hazard in the kiln or control room.
4. It seals completely to give you reliable moisture readings throughout the kiln cycle.
5. Easily resealable containers let you use everything you buy instead of throwing out half of a hardened, dried out bucket.

### ***TRY IT BEFORE YOU BUY IT!***

We will be pleased to send you a sample, at no cost, for your testing and evaluation. Use it in your operation, in real life conditions, and see that it meets *your* requirements. Please contact us as soon as possible so you can begin enjoying the benefits of
