

## **BRITEWOOD® XL**

### **Sapstain control that fits your needs**

- Protects all hardwood and softwood species from sapstain and blue stain while air drying
- Apply to freshly cut lumber to prevent damaging mold and fungi growth
- Easily adjust dilution ratios depending on region, season, species or sawmill processing capacity
- No unnecessary additives or boosters
- Stable formula does not require additional mixers

## **SOL-BRITE**

### **Remove and prevent iron stains**

- Enhances the appearance of freshly cut hardwood and softwood lumber
- Eliminates iron stains caused by sawing
- Renews weathered lumber, restoring natural color
- Delays graying of lumber as it air dries
- Compatible with BRITEWOOD® XL
